

**REQUIRED DOCUMENT**

The document must be signed and returned before a student athlete can participate.

2026-2027 SEASON**CODE OF CONDUCT POLICY**

Athletes are observed in many areas of school and community life. An athlete must always remember they no longer represent just themselves, but represent their team and school. Therefore, it is important that an athlete's attitude and behavior, both at school and in the community, be above reproach so it will bring credit and honor to their team, school and alumni.

Respectful behavior includes responding to and addressing coaches and teammates to their face, not talking back, questioning decisions or undermining their authority. Doing so, prevents a coach or player from demanding respect from their peers and eliminates their ability to be an effective coach or player.

Therefore, by signing this document you understand that disrespecting a coach or teammate will result in immediate removal from practice. If you are sent home from practice the head coach will contact you the next day to inform you when you can return to practice if at all. If you are not invited back you can request the following process to be reinstated.

Process for possible reinstatement if cut from the team for disciplinary reasons:

1. Apologize to the coach and submit a formal apology letter explaining why the event occurred and why it will never happen again.
2. The letter will be submitted to the team for review and a vote will be taken to grant or deny the offending player the opportunity to address the team in person to explain the incident and why he should be reinstated.
3. If the player is given the opportunity to address the team, a time will be set for the offending player to explain his behavior. A blind reinstatement vote will then be held to conclude If the team majority finds the apology sincere and worthy of reinstatement. The player is then notified of the decision.

NOTE:

- The player will remain suspended during the entire review process.
- This is the only path to reinstatement.
- All decision are final
- If a player has any additional disciplinary incidents he is immediately removed from the team with no recourse.

I acknowledge that I have read and understand the Arizona Men's Lacrosse Code of Conduct and agree to abide by the programs rules as established by this document.
